P.O. Box 30307, N. Las Vegas, NV 89036

- 1 We purchased land in Caliente years ago, with the intention of retiring in a remote area, free from traffic congestion, large populations, pollution, INCLUDING NUCLEAR WASTE, close housing, and all the other trappings of city life. We have spent a lot of money building our own home and developing our dream retirement. PLEASE DON'T SPOIL IT!!!!!!!!!!!! We don't want the Yucca Mountain storage put into use. Nevada doesn't even use nuclear fuels of any kind, why make us the dumping ground for the entire country. If a state creates nuclear waste, make them responsible for its storage, NOT Nevada.

Please listen to the average person who lives in Lincoln County, not all the politicians that have all the money to put this dump here. You're spoiling our homes, polluting our water, crowding our roads, and ruining our lifestyles, NOT THEIRS!!!

Thank you for your attention.

Papermail: P.O. Box 615  
Caliente, NV 89008  
PLEASE DONT SELL OUR ADDRESS.
